

Complete ATS Resume Analysis

Aarav Sharma · Senior Frontend Engineer

Recruiter-grade scoring, keyword intelligence and a 2-minute action plan

RECRUITER'S OPINION

STRONG **GOOD**

Your resume has a strong technical foundation and is fully ATS compatible. However, measurable achievements, keyword optimization and project detail should be improved before applying to senior roles at competitive companies.

Interview readiness: Ready for mid-level interviews, close for senior

SCORE BREAKDOWN

TOP STRENGTHS

- ✓ Strong ATS-friendly single-column formatting
- ✓ Good coverage of modern frontend keywords
- ✓ Clean section hierarchy and consistent dates
- ✓ Reputable education and certification

TOP IMPROVEMENTS

- ! Missing quantified achievements in most bullets
- ! Projects lack measurable business impact
- ! Weak action verbs such as 'responsible for'
- ! Missing important ATS keywords for senior roles

How to Improve Your Resume

Highest-impact fixes first — each one is worth real ATS points.

HIGH PRIORITY

+12 ATS pts

Quantify achievements in every experience bullet

Why Recruiters shortlist candidates who show measurable impact and business outcomes.

Fix Add numbers, percentages, revenue or time saved to each senior bullet point.

MEDIUM PRIORITY

+8 ATS pts

Add missing senior-level ATS keywords

Why The parser did not find keywords that senior job descriptions require.

Fix Weave Web Vitals, micro-frontends and observability into skills and bullets.

MEDIUM PRIORITY

+6 ATS pts

Strengthen project descriptions with scale

Why Projects currently read as hobby work without users or outcomes.

Fix State stack, users served and one measurable result per project.
